## LOOKING FOR DURABILITY, RELIABILITY AND ENERGY EFFICIENCY? MEET MODEL 470

*Overhead Door Introduces New Insulated Sectional Steel-Backed Door*

LEWISVILLE, Texas (Oct. 31, 2016) — Commercial and industrial applications which require reliability, durability and thermal efficiency only have to turn to Overhead Door's new Model 470. This insulated, sectional steel-backed door is solidly constructed for reliable and thermal performance.

Model 470 is available in five double-coated finishes, including white, almond, brown, sandstone and desert tan. Its rugged construction provides durability and reliable performance with an R-value of 9.83. The tongue-and-groove joint profile resists air leakage between sections, allowing for superior thermal efficiency.

"The Model 470 will complement a variety of applications like shipping facilities, warehouses and distribution centers," Heather Meiner, brand manager for Overhead Door said. "We're excited to add another durable and efficient door to our robust commercial portfolio for our distributors and customers."

### **About Overhead Door Corporation**

Overhead Door Corporation, based in Dallas, Texas, is a leading manufacturer of doors and openers for residential, commercial, industrial and transportation applications. The company has five divisions: Access Systems Division (ASD), which features the Overhead Door and Wayne Dalton brands; The Genie Company, manufacturer of remote-controlled garage door opening systems; Horton Automatics, a manufacturer of automatic entrance systems; TODCO, the largest producer of truck doors for the transportation industry; and Creative Door Services, western Canada's leader in providing door products and services to the residential, commercial and industrial markets. Overhead Door Corporation created the original overhead garage door in 1921 and the first electric garage door opener in 1926. Overhead Door now employs more than 3,500 people, has 22 manufacturing facilities, 78 regional sales and service and installation centers and more than 5,000 distributors and dealers that service national builders, national accounts, architects, general contractors and homeowners, as well as major retailers in the U.S. and Canada. Overhead Door Corporation is a subsidiary of Sanwa Holdings Corporation of Tokyo, Japan.
